education

Computer Science major 3.86 GPA
Business minor 3.70 GPA
Arizona State University
Graduating in May 2011

skills

expertise..... PHP, HTML, Javascript, jQuery, MySQL, CSS
proficiency..... Java, C, C++, MongoDB, Unix Shell
applications..... Eclipse, SVN, Apache HTTP Server, Photoshop
operating systems.. Windows, Linux, FreeBSD

open source projects

Dornbase

Dornbase is an open source, highly versatile web-based CRM system I created using PHP and MySQL. I began development over 3 years ago and it is currently on its 8th iteration. Dornbase has been downloaded hundreds of times and is being used successfully by at least 2 local companies.

<http://sourceforge.net/projects/dornbase>

DornCMS

DornCMS is an open source content management system I created that makes it easy to manage simple personal or informational websites. It is currently being used by several local authors and small businesses.

<http://sourceforge.net/projects/dorncms>

experience

Paybuyer.com, **web developer** 2007 - Present

Created multiple complex web applications with PHP/MySQL. Features include AJAX user interfaces, user accounts, advanced accounting, and administrative tools. Tasks included graphic design, PHP and javascript programming, web design with HTML/CSS, and server/database administration.

Jeremy Dorn Web Design, **owner** 2007 - Present

Created informational websites for small businesses and authors around the Phoenix area. Provided configuration and customization services for Dornbase and DornCMS.

Bigup Inc., **web designer** 2007 - 2008

Tasks included: implementing CAPTCHAs into forms, creating XHTML websites from PSD files, implementing new designs into existing sites, and creating web applications with the CakePHP framework.

honors/awards

Provost Scholarship for all 4 years (based on SAT scores and class rank)
Dean's List Spring 2008 - Fall 2010
PMTA Piano scholarship

educational courses

Some of the courses I've taken include Compiler Construction, Artificial Intelligence, Quality Control, Database Management, Human Computer Interaction, and Software Analysis and Design.

miscellaneous

Programmer on a FIRST robotics team for 2 years and a mentor for 3 years.
I have a web development blog at <http://jeremydorn.blogspot.com>.
Played varsity tennis in high school and taught tennis for 4 years.
I have played and performed piano for over 10 years.
